

# Building Your Generational Legacy

## Key Points:

- At the moment every generation has to start from the beginning
- Legacy is about helping the next generation start a little better than we started
- Legacy is more than money; it is passing down knowledge also
- Building a legacy takes time

## Discussion Questions:

*(Make it a safe place where people understand that they do not have to share if they don't feel comfortable with sharing private / sensitive information but emphasise the importance of them still answer the question and writing it down for themselves.)*

1. What would you like to be written on your tombstone?
2. How is it different from what you are doing now?
3. What is the legacy (asset & knowledge) you would like to pass on to the next generation?

## Legacy Building Activity:

Buy a journal and set time aside as often as you feel (weekly, monthly, etc.) and start creating an asset base of knowledge that you would like to pass on to your next generations.

*N.B. Please do not hand these out, these are for you to guide / facilitate conversation. We suggest you ask the question and open it for discussion. If there is a void in conversation, or it is hard to get the conversation going, share your answer then ask the others if they have any thoughts. The questions are a guide only, allow discussions to carry on as long as it is still on topic. Ensure the activity is given as "homework" so people are getting value and making progress.*
